Forshaw Chase Top Flashing

The perfect way to top-off a zero-clearance fireplace is with a Forshaw chase top flashing... the finest flashing you'll find.

No one else can offer you a flashing top with this unique combination of features:

- Eliminate extra trips; deliver and install in one trip
- 26 gauge G-90 galvanized steel for extra weather resistance
- Other metals available: aluminum & pre-painted black 26 gauge G-90 galvanized steel
- Seamless, one-piece stamped flashing and extra tall collar prevents any leakage; eliminates caulking
- Tall collar prevents leaks that might otherwise occur due to sagging or snow build-up
- More standard sizes, so you can choose what size works for you in your market
- Double and Triple-hole flashings available
- Eliminate the high cost of a sheet metal shop

NOTICE: Chase Tops must be installed according to the fireplace manufacturer's specifications
